- Operating Systems : Microsoft Windows XP/VISTA , Windows-7.

TRAININGS ATTENDED:

- Attended a certification course of 48 hour on "ETHICAL HACKING" at Synergy institute of engineering and technology.

EXTRACURRICULAR ACTIVITIES:

- Member of college cultural committee.
- Making Software collection.
- Playing Outdoor and Indoor games like Carrom etc.

ACHIEVEMENTS:

- Won the 1st prize in "TECHNICAL QUIZ" in SYNTRONIX in synergy institute of engineering and technology.

PROJECT:NETSMART

"The objective of the project is to design and implement a Network monitoring tool "NET SMART" using Java. Our project work involves capturing the packets being sent in a local network, determination of which system is communicating with which other system, analyzing the packet to determine the source port, destination port, Apart from this, our project involves ping machine that is used to find & determine if a particular system is active or not, port scanner

Project Work

Title: AUTHENTICATION SCHEMS FOR SESSION PASSWORDS USING COLOURS AND IMAGES

Role: Team Lead, Designed the entire project by creating and maintaining the database and connecting the data base with my project

Description: Textual passwords are the most common method used for authentication. But textual passwords are vulnerable to eves dropping, dictionary attacks, social engineering and shoulder surfing graphical passwords are introduced as alternative techniques to textual passwords. Most of the graphical schemes are vulnerable to shoulder surfing to address this problem; text can be combined with images or colours to generate session passwords for authentication. Session passwords can be used only once and

IT Maestro | Passionate about Tech Solutions | Proficient in Java, Python, and C

Proficient in an array of programming languages and tools; committed to leveraging technology for impactful and creative problem-solving. With expertise in Data Governance, Business Intelligence, and Agile methodologies, the commitment lies in navigating complex datasets to unveil the stories they hold

PROFILE SYNOPSIS

- Data Crafting Mastery:** Versatile BTech student at Thapar Institute; functioning as a skilled Data Alchemist, adept at translating raw data into compelling narratives; demonstrating a proven track record in implementing robust analytical frameworks, empowering organizations to make strategic decisions with unwavering confidence.
- Innovative Solutions Architect:** Catalyzing innovation through the introduction of pioneering data-driven strategies, resulting in remarkable efficiency gains and substantial revenue growth for clients.
- Inquisitive Data Explorer:** Embarking on a journey as a Data Detective, this professional possesses an innate curiosity that drives deep dives into datasets, extracting insights that might elude others.
- Meticulous Documentation Artistry:** Functioning as a Documentation Maestro, this professional is meticulous in every phase of the analytical process.

KEY ACHIEVEMENTS

⇒ Received an award of distinction in the National Chemistry Quiz by ANCO

TECHNICAL PROFICIENCY

Programming Languages	R, Java, Python, C, MATLAB, Kotlin, XML, MySQL
Tools	Git, Figma, Balsamiq, JIRA, AutoCAD
Testing Frameworks	Junit, Mockito, Selenium
Operating Systems	Windows, Linux/Unix

CORE COMPETENCIES

- Data Analysis - Data Visualization Tools - Predictive Analysis	- Database Management - Programming - Data Governance	- Code Optimization - Communication Skills - Stakeholder Management
--	---	---

EXPERIENCE

Cashier | United Model School, Mohali | Jan 2023 – Mar 2023

- Transaction Accuracy:** Ensured precise processing of customer transactions, maintaining a high level of accuracy in financial transactions.
- Cash Management:** Managed the cash drawer efficiently, ensuring accuracy in accounting & financial documentation.
- Customer Collaboration:** Collaborated seamlessly with a dynamic team to address and resolve customer complaints promptly, enhancing overall customer satisfaction.
- Customer Service Enhancement:** Played a key role in enhancing customer service standards by actively participating in collaborative problem-solving and maintaining a customer-focused approach.

EDUCATION

BTech – Computer Science & Engineering | Thapar Institute of Engineering & Technology | 20XX

Certifications: MySQL Bootcamp | Course Certificate (Udemy)

PROJECTS

- Carrier Pigeon** - Developed an Android Application in Android Studio using Java and XML which is designed to read the latest news of different genres.
- Working Robot** - Sculpted the robot structures using AutoCAD.
- Event Manager** - Developed a program in C to transform raw data into human-readable output.
- Operation F1** - Processed historical Formula One (F1) data from .csv files.

Innovative computer science specialist skilled in software development, full stack engineering, and leadership of small to medium teams of IT staff. Adept at creating out-of-the-box processes and utilizing cross-department collaboration and analytical thinking to develop unique and secure software solutions. I'm currently looking for my next challenging role within which I would aim to build an enduring contribution towards the overall organization's immediate goals and strategic objectives.

EXPERIENCE

Globber, 2018-2023

SENIOR PROGRAMMER

Globber is a planning, engineering, and cybersecurity consulting firm serving clients in the finance, tech, and development markets. Throughout my work there, I supervised a team of software developers across 3 offices.

- Proposed a new tracking method that proved more accurate and improved productivity by 15% within 3 months of implementation.
- Led a team of 23 software developers, consistently reaching department goals before deadlines.
- Set performance goals and conducted regular performance reviews.

Apeel, 2014-2018

SOFTWARE DEVELOPER

Apeel is a global provider of the latest gadgets, and a thought leader in the industry, publishing technology news daily with a reader base of over 2 million people. In my role, I:

- Identified new tools for static code analysis that uncovered an error causing 5% extra yearly expenses.
- Spearheaded a 30-person research team, overseeing task delegation and managing multiple projects at once.
- Increased customer satisfaction by 38% over 2 years by developing a mobile app for the sales system.

TwoPage, 2012-2014

CLOUD ENGINEER

- Developed and implemented cloud-based solutions using AWS and Azure platforms, resulting in a 25% increase in efficiency.
- Designed and implemented recovery and backup strategies for applications, resulting in improved operations and security.
- Monitored and optimized cloud-based applications to improve performance and reduce costs, resulting in 30% cost savings.

BigTech, 2009-2012

IT TEAM LEAD

- Led a team of 17 programmers, software developers, and testers to deliver high-quality services to clients.
- Developed and implemented strategies and policies to improve security and compliance, resulting in a 40% reduction in security breaches.
- Oversaw the implementation and maintenance of hardware and software assets, ensuring they align with company guidelines.
- Mentored and coached team members to improve their technical skills and advance their careers.

MAJOR PROJECT:

Title: Dimension Reduction using Principal Component Analysis (P.C.A.) algorithm.

Under guidance of Assistant Prof. XYZ

Platform: Core Java

Objective: This project is beneficiary to reduce large amount of data in data processing like transmit, store or process. As for transmitting large amount of data, it consumes large memory space and long processing time. So with help of this algorithm it reduces the size of data.

Title: C Compiler-Implementation of lexical analysis (first phase)

Platform: C language

Objective: This project explains the working of the first phase of compilation process i.e. Lexical analysis
